

engage to innovate

WHO WE ARE

Engage to Innovate provides business improvement advisory and consultancy services to a broad range of industry sectors.

WHAT WE DO

In addition to helping businesses lift their organisational and operational performance, we also provide WHS/EHS consulting and training services to help subcontractors and SMEs meet Tier 1/Prime contractor compliance requirements.

The legislation for WHS Compliance is stringent and not always understood. To add to the complexity, Tier 1/Prime Contractors also have 'organisation specific' WHS/EHS compliance requirements that we are able to help SMEs meet.

We have extensive experience and knowledge of WHS/EHS compliance and will work with your company – as little or as much as you require to ensure that your EHS/WHS compliance requirements are understood and achieved.

WHAT WE HELP WITH INCLUDES

- Assisting subcontractors and SMEs with their WHS/EHS Plans and procedures
- Providing WHS Training workshops that give:
 - ⇒ A detailed summary of WHS legislation and what it means
 - ⇒ An outline of the essential components required in a WHS Plan
 - ⇒ Clarification of EHS Management – the scope and what is considered best practice
 - ⇒ An opportunity for participants to interact and have their questions about compliance answered and resolved
- Creating and developing WHS/EHS procedures and plans to achieve compliance
- Development of analytical reporting requirements for compliance
